

REPORT ABOUT 2ND MOBILITY IN GRANADA

(SPAIN)

After the travelling day, and free day because of Regional Teacher's Day on Monday, schools were shut down, we had our first meeting all together on Tuesday.

In the morning, we met at the main entrance, and went to the school's library to work together. We all made our school's presentations. We got to know the similarities or differences between every country's educational systems. We concluded that most part of our educational systems, are similar and we share main objectives: levels and learning standards, special needs treatments. Differences are basically on assessment, evaluation and testing. Ages and levels, are named differently, but mostly similar.

From lunch time, we had free afternoon.

On Wednesday, we started in the morning with a visit through Ave María Casa Madre School. It was made from Kindergarden, Primary, Secondary, and HighSchool. We could visit the gardens where students develop the Eco School and other Projects, Chapel, Laboratories, active-learning playgrounds, different plants and wildlife living in the school forest, visiting students classrooms, and open-air activities.

We had lunch together, traditional Spanish "paella" in the Albaycin neighbourhood next to school. And during the evening we shared some time watching traditional Spanish Flamenco dancing.

On Thursday, we started with presentations about Gender Situation of every country of ours. We learnt about gender legislation in recent years, graphics about education based on gender and gender roles in schools and society in different European backgrounds.

We noticed that most of us, share similarities and the religious and traditional systems inherited throughout the years, have made that women situation in society seem hard to change, moreover when they become mothers. Consequently, in the last decades, many political changes have been made in most of our countries, but have shown deficiency since expectations have not been aimed completley. There is still so much work to do about it, and it starts at school.

Finally, on Friday, we had an act for certifications with our Headmistress, and a wonderful day for saynig bye bye.
